REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Note that all percentages (%) are intended to be as percent weight to weight in accordance with Applicants' specification at page 5, lines 19-21, claim objections are therefore withdrawn. Further, the present amendment is sufficient to overcome the art rejections and sufficient to place the instant claims in condition for allowance. The inclusion of a layer of pressure sensitive adhesive being disposed on the other side of the backing opposite the layer of heat-activated adhesive renders the claimed invention patentable over the prior art. Everaerts '136 discloses a pressure sensitive adhesive tape comprising a polyester substrate and a layer of a pressure sensitive adhesive bonded to the substrate wherein the pressure sensitive adhesive layer has a chemical formulation similar to the claimed acrylic foam-like backing. One of skilled in the art would not be motivated to add an additional layer of pressure sensitive adhesive on the other side of the pressure sensitive adhesive layer opposite the substrate of the adhesive tape disclosed in Eeraerts' 136 from the practical view of cost effectiveness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
